

UI / UX Designer

As a UI / UX Designer at Codespeed, you'll collaborate on a variety of fun and interesting projects and flex your creative muscle designing end-to-end user experiences from concept to final art. You'll work and contribute as a key member of the development team and advocate for the importance of design in the development process. You'll also get to live and play in the most amazing place there is to live and play . . . Spokane, Washington.

Here's who we're looking for:

- Creativity is in your blood. You possess a natural “eye” and innate artistic talent.
- You are interested in and can think analytically about how creative design and user-experiences overlap synergistically.
- You can demonstrate your skills and experience creating web layouts, UI layouts, and graphic design elements.
- You can provide extreme attention to detail and are very picky about designs you produce.
- You are an expert with design and layout tools like Illustrator, Photoshop, and Sketch.
- Experience with and knowledge of development cycles and AGILE / SCRUM workflows.
- You have excellent time management skills and the ability to stay focused on tasks
- You communicate clearly and effectively
- You desire to learn and improve your skills

To be considered for an interview, please submit your resume and a cover letter in confidence to jobs@codespeed.com. Use “UI / UX Designer” in the subject line.
